NILFISK®

STRONG SUCTION

HEPA FILTER

BLOW FUNCTION

BIG CAPACITY

For those who live an active life and want fast and easy cleaning!

Do you want a tidy home, free from dust and looking neat? Nice too if it can clean the air at the same time?

So what you need is a vacuum that is fast and functional. Easy to use and effective. Something that is light and powerful with strong suction and good filtration. So that a quick go around the home leaves everything looking as though you have been slaving all day. Your dinner guests will wonder how you find the time to do it.

NILFISK Action features a hefty 1800W suction motor, strong enough to get the dust up effortlessly. It comes with a generous 3.2/6.5 litre dust bag, so you do not have to think about changing it too often.

A blow function means you can blow dust out from those hard-to-get-at places such as under radiators. A HEPA H10 filter comes as standard, which is important for filtering and keeping pollen, dust mites etc at bay.

For a vacuum cleaner that fits your lifestyle, it has to be a NILFISK Action!

PARKING OF TUBE AND NOZZLE: EASY TO STORE THE VACUUM CLEANER

THREE ACCESSORIES ON-BOARD: ALWAYS AT HAND

CABLE RE-WINDER: SAVES TIME AND TROUBLE

BONUS ON A200: HARD FLOOR NOZZLE
