ROBUST DESIGN

POWERFUL, ELEGANT & VERY ROBUST

The impressive performance defies the vac's compact size - making it ideal for people who live in flats or wherever space is a premium. Vacuuming stairs is easy.

The vac is designed by Nadya Arnaut from Designworks/USA. The vac's design has been developed to be aesthetically pleasing, yet very functional at the same time. The powerful motor means excellent cleaning results, while the HEPA filter traps unwanted allergens and dust mites.

Cleaning is as easy and as pleasant as it can be. The highly manoeuvrable vac has high quality nozzles and on-board accessories. It is so silent that vacuuming doesn't bring everything to a standstill.

Strict guidelines from the Swedish consumer organisation mean functions are durability tested thousands of times. Nilfisk Power is constructed from the strongest materials giving it robustness to last and last.

MODEL	P40	P20	P10
